

4th Grade

Ms. Brunton

Supply List 2020-2021

- A **backpack** or bag that will fit in their locker at school.
- At least **20 #2 pencils**. Just the yellow kind!!! Please do not purchase the sparkly, fun pencils your child is asking you to get! The fancy pencils all break the pencil sharpeners. So - please - just get a big box of plain yellow pencils.
- **Mechanical pencils with extra lead** - It is a lot easier to get a 3 pack of nicer mechanical pencils and buy extra lead, as opposed to the cheaper mechanical pencils that don't last long.
- One pair of **over-the-ear headphones** to be kept at school. The 4th grade students all agree that over-the-ear headphones work better than earbuds. We use these daily and they need to stay at school. They should NOT be bluetooth - just the wired headphones.
- **White glue sticks** - not purple, not blue, just white. If you can not find white glue sticks, just skip it.
- **Scissors**
- **Markers, colored pencils, and crayons**. I will provide a shoebox for all of these to be stored in.
- **PE shoes** - they need to be non-marking shoes that can be kept at school for the year. They need to either be new or freshly washed. Students need them at the beginning of the year, because even when weather is nice, PE may not be outside. The PE shoes really do need to stay at school all the time -
- **Three - 1.5 inch, 3-ring view binders** - They may be a color other than white, but no binders with pictures or decorations - **view binders only**
- One **wired USB mouse** to use with Chromebooks (NOT wireless)
- I will provide spiral notebooks, paper, composition books, and folders. It is easier if I get those things and distribute them myself.

Any other fun things your child may want to bring to school, that are not on this list, will be sent right back home! Not kidding! Please, just stick with the items on the list.
